

## Report from NAG for the Annual Town Meeting 5-5-21

The local NAG covers a large area and is where representatives of each local council come together with the Police and other agencies to try and improve community safety.

With regards to what benefits Faringdon directly is the work that has been achieved regarding speedwatch, where we have been working with the Police and OCC in reducing speed limits in the built up areas, and having speedwatch members that are then able to help monitor these areas. This has only just been accepted and we look forward to its uptake.

We also ensure any concerns of Faringdon Community College are addressed, and have managed to put many things in place over the years that have been requested at the NAG for the benefit of the pupils and the community.

Cllr Kimberly Morgan
