- b) **P22/V0996/RM**, for development work at the following location: Land South of Steeds Farm Coxwell Road Faringdon Reserved Matters following Outline Permission P18/V0259/O
STRONGLY OBJECT
- All previous objections by FTC to this application stand.
 - Supporting and reiterating all comments from Great Coxwell Parish Council (GCPC)
 - Not conforming to GCPC Neighbourhood Plan
 - Connectivity to other housing: Cycle connectivity to Fernhill Gardens is claimed unfortunately this will not extend to Highworth Rd.
 - Parking provision: The number of visitor parking spaces is insufficient
 - Object to the response statement which argues against building much needed one bedroomed properties, which should be rejected.
- c) **P22/V2485/HH**, for development work at the following location: 44 Gilligans Way Faringdon Proposed new single storey rear extension and new obscured glazed window on the first-floor side elevation.
NO OBJECTIONS
- d) **P22/V2382/FUL**, for development work at the following location: Land at Fernham Road Faringdon. Proposal for 8no new family dwelling
STRONGLY OBJECT
- Connectivity: There are no right of way links to the play area or to Coxwell Rd through Fernham Fields
 - Highway safety and over development: Fernham Rd is a bottleneck and is overloaded with traffic particularly at school run time for the Community College, which is already dangerous. This development will add further congestion.
 - Drainage: Insufficient capacity.
- e) **P22/V2506/FUL**, for development work at the following location: 3 Pioneer Road Faringdon. Change of Use from Class B8 (Warehousing and Distribution) to Suis Generis comprising of Warehousing and Distribution, Hospitality, Public Bar and Retail.

STRONGLY OBJECT
- All previous comments on this application stand.
 - Height: The building is still dominant, higher than the previous Tectronics buildings and not in keeping with the area.
 - Highways: Statement there will be less vehicle trips than the historic industrial use is false. There were previously six parking spaces for Tetronics on Canada Lane and about 10 on the Lechlade Rd entrance; hence, vehicle movements in the days of historic industrial use were much lower as only 25-30 people were employed there.
 - Inadequate Parking: 36 parking spaces is inadequate for 44 flats plus staff plus visitors.
 - Highway safety: emerging vehicles could be a hazard to pedestrians walking along the southeast side pavement at the site entrance. Transport Statement needs clarification at points 3.5 & 3.6
 - Aerial readings need clarifying as not taken from the lowest points
 - NOTE: This application has the wrong address. The address is 5 Lechlade Rd. The Heritage statement refers to it as 5 Canada Lane which is also inaccurate.
